

Trumpf Close to Form Slitting Tool

Machine : Available for all Trumpf-type machines other than Group S machines

Features and benefits:

- OPTIMA coating as standard on HSS replaceable cutting insert for up to ten times the punch life
- Regrind life of a full 3 mm
- Integral collar for positive and accurate alignment
- Keying at 0° or 90° and for use in up to 2 mm material
- Relief for up to 6 mm high forms giving no material deformation
- Slitting length up to 56 mm
- Option of slitting die for down-form applications
- Steel stripper plate and springs (rather than urethanes) for strong stripping power, less down-time and lower tool maintenance
- All parts made from high-quality tough material and fully guided
- Options for rectangular, obround, inverted diamond and trapezium shapes

Part number - 6.5mm relief 25920
- Slitting die 25596
