

INTRODUCING . . .
WILSON

2.4.1™
DIE SYSTEM

TWICE THE LIFE
TWICE THE VALUE

THE WILSON ADVANTAGE

INTRODUCING . . .

WILSON 2.4.1™ DIE SYSTEM

With the **WILSON 2.4.1™** die system, the 241 family is complete!

WILSON 2.4.1™ represents an exciting concept in tooling. For owners of Trumpf, Pullmax, Boschert, Euromac and Omes punch presses, the terms 'value' and 'tool life' take on a whole new meaning.

The new **WILSON 2.4.1™** die features a unique design which incorporates a die holder, die blade and precision spacers. This increases grind life to an unprecedented TWICE that of old style tools.

Other value-added features include:

- **All die blades are made of High Speed Steel**, providing you with more hits between sharpening and reducing machine down time.
- **Increased versatility.** There is now no need to purchase a solid old style die when changing shape, dimension or clearance.
- **Reduced costs!** Die adaptors are no longer required.
- **Fast delivery!** We maintain the largest inventory of tooling in the world making it possible for you to get your tools fast!

Part No.	DESCRIPTION
25986	241 Series Die Blade Holder Assembly 0-40mm
25987	241 Series Die Blade Holder Assembly 40-56mm
25979	241 Series Shaped Die Blade 0-40mm
