

WILSON *Quik Adjust™*

**A New Lease on Life for
Your Old Thick Turret Tools**

Revitalize Your Tools with Quik Adjust™ for Thick Turret

Use the innovative Quik Adjust spring packs with your existing metric Amada® "Old Style" or Wilson Standard assemblies and watch your productivity soar.

- ▼ **Fast, Shim-free Adjustments** Adjust without shims and without removal from the guide for less downtime and more productivity.
- ▼ **Extremely Tough** Punch heads and canisters treated with Nitrex™ coating for greater strength and longer life.
- ▼ **Increased Grind Life** Fully adjustable through a .250" (6.35mm) range to maximize punch use.
- ▼ **Fully Compatible** Fits both A & B stations for metric Amada® "Old Style" and Wilson Standard tools.

Metric Amada® Old Style - A Station **Cat. No. 13394**
Metric Amada® Old Style - B Station **Cat. No. 13399**

Wilson Standard - A Station **Cat. No. 13404**
Wilson Standard - B Station **Cat. No. 13408**
