

# HP2 & HPX Assemblies for Amada Auto Load (PDC) Machines

Thick Turret Wilson Tool customers have long enjoyed the benefits of the HP2 quick-adjust system, allowing fast and easy punch length adjustment by simply clicking the punch head.

This time-saving, Lean-friendly product is now also available for use on HP2 and HPX assemblies in A (1/2") and B (1-1/4") Stations for machines with PDC Auto-load system.
