

Cresteti productivitatea sculelor de taiere pe contur pe masini de stantat CNC cu sculele Wilson Tool DURABLADE

INCREASE YOUR PARTING PRODUCTIVITY

Reach new levels of parting productivity with Wilson Tool International's High Performance DuraBlade® for thick and thin turret punch presses. HP DuraBlade® dramatically reduces downtime by maximizing the number of hits between sharpenings utilizing a replaceable, fully-guided blade insert made of Ultima® Premium tool steel. It also features quick release stripper plate retention and a push-button adjustment system that allows for fast and easy tool changes. Only HP DuraBlade is uniquely equipped to handle the daily rigors of sheet metal parting.

High Performance Features

HP DuraBlade includes all of the performance-driven features of the HP-style tooling:

- HP-style quick release stripper retention for fast and easy tool changes
- HP-style side-mounted push-button for fast and easy tool adjustments

— Plus —

- Cutting insert made with Ultima Premium tool steel, increasing the grind life for extended punch use
- Fully guided for maximum support and accuracy at the punching surface
- Designed specifically for parting applications

Available with one- and two-sided relieved strippers for use in close-to-clamp applications (thick turret only).

Dura-Die is the ideal complement to HP DuraBlade for thick turret parting. Learn more about parting tools at wilsontool.com/parting.
